

International Student/Teacher option to participate remotely in the 2023 Training Series...

We are offering up to 6 individuals (or partners) the opportunity to participate remotely (via zoom) in the series of 3 courses.

Only International Students (outside the US) are eligible. We have space for 2 teachers and 4 students.

Guidelines to qualify:

- 1) You must commit to attend all 3 courses (called Phases) in the 2023 series.
- 2) Have a good internet connection, camera, mic and technical ability – we will test equipment in advance of accepting you for remote participation.
- 3) Have a partner to demonstrate on – If they are participating in the class as a student, they will need to complete their own registration.
- 4) Willing to participate during live class times. Time zone differences could create inconvenient hours.
- 5) Speak and understand English fluently.
- 6) “Retakes” will be considered only if space is available. Since space is limited we want to first give priority to new students.
- 7) Purchase the tools needed for each course at least 1 month in advance so the tools arrive in time for the course.

Remote participants will receive full credit for course attendance toward certification.

To explore whether remote participation is right for you, let’s talk...

- Send an email to tim@somaenergetics.com
- Include your basic info, name, city and country, phone email
- What time zone you are in related to US EST (NY Time) ie: UK +5
- A few good times to zoom over the next week.

Thanks – Tim and David
