### Course Overview: Vibrational Techniques to Assist Your Clients

This course builds upon a strong anatomical and therapeutic foundation for the use of vibration in a therapeutic setting. Participants in this course will learn and be able to demonstrate a set of protocols as a stand-alone modality, or in addition to massage and other forms of manipulation.

#### What you will learn:

- 1) Students will come away with an understanding of each of the 14 meridians, their pathways, major acupoints, their beginning and end points on the body.
- 2) Students will learn how to assist the body in restoring optimum energy flow through these meridians.
- 3) Students will also learn additional points where osteophonic tuners can be applied to the body such as trigger points, local points, spinous processes, and hand and foot reflex points.
